

### **Non-Skid Roof Protection Pad Directions**

The Non-Skid Roof Protection Pad serves to keep your Car Top Carrier from sliding on the roof of your vehicle. It is especially recommended when using the PackRight Car Clip Strap Set on vehicles without luggage racks. The Pad also protects the roof from damage caused by sharp edged objects packed within the carrier.

**1-** Clean the roof of your vehicle.

**2-** The Pad is 36”L x 36”W. You will need to cut it to a smaller size if you are using the PackRight Sport 1 (cut to 36”L x 34”W) or Sport Jr. (cut to 36”L x 30”W) Carriers. Use a straight edge to mark your line and cut the Pad with scissors or a utility knife.

**3-** Place the pad on the roof of your vehicle textured side up. Place the Car Top Carrier over the pad and begin packing. Try to keep the Pad under the Carrier as loose edges may flap in the wind, creating unwanted noise.

**4-** Wipe the pad clean after use and store in a clean dry place. Storage inside of a plastic bag is recommended.
