

### ***Cargo Saddlebag Directions***

**NOTE:** Emergency access to the rear door and/or window of your vehicle will be extremely limited when using this product. There should never be occupants in the vehicle that require access through the rear door while this product is in use. Make sure that you have a clear view through the rear window before driving.

**1-**Attach the two primary side straps to vehicle luggage rack, making sure the pads are face down on the top rear corner of the vehicle. Adjust the strap glides so that no excess strap material will flap in the wind. Excess strap material can also be cut off and the edge burned for no fraying.

**2-**Adjust the straps so that the bottom of the bag is located at your desired height. Keep the Saddlebag and straps away from the hot exhaust system. Accessories such as the door, window, wiper, etc. may not be operable while the Saddlebag is attached. Load limit for the Saddlebag is the lesser of 100 lbs and the weight limit of the vehicle's luggage rack.

**3-**Run the (2) one-inch wide straps through the guides at the bottom of the bag and attach to the tow hitch, bumper, or underneath the vehicle.

**4-**The long two-inch wide strap can be optionally used in one of two ways:

- a. Run it through the guide under the bag, up and over the top of the vehicle, under the front luggage cross bar, and back down to snap into its other end. This configuration will help to distribute the weight of the Saddlebag evenly across the entire luggage rack.
- b. Run it along the inside width of the vehicle's rear door, shutting the door over the strap. Continue around the girth of the bag, tightening the strap like a belt around your waist. This configuration will provide a back-up point of attachment to the vehicle. Excess strap material can be cut off and the edge burned for no fraying.

**5-**Test drive your vehicle with the Saddlebag fully loaded prior to your trip to ensure correct installation. Please inspect the Saddlebag's attachment, the luggage rack's attachment to the vehicle, and the clear view through the rear window.
